

GABBART & WOODS TAHOE / 2018

Gabbart & Woods Tahoe is a structural engineering company based in the Lake Tahoe-Truckee region. The company is a partner in the larger group of Gabbart & Woods LLC.

Gabbart & Woods Tahoe is led by a group of five Principal Partners with complimentary diverse backgrounds, who have teamed with intention and vision to shape a resourceful, collaborative group. Within the group, each Principal retains full authority on behalf of her/his clients, with ultimate project responsibility through all phases from proposal and contract decisions through design, communications, documentation, and construction. Principals collaborate constantly and often team up to manage larger projects. The group also collaborates within the larger Gabbart & Woods LLC.

The company is influenced by a strong bent toward transparency, social awareness, community involvement, and a greatest net benefit mentality. Company shares are owned by Equity Stewards who provide the company with financial stability and receive returns of approximately 6 per cent of annual gross sales. Approximately 10 percent of returns are resourced to provide ongoing support commitments for organizations that nurture communities or empower three targeted areas: sustainability, education, and infrastructure.
