

# GABBART AND WOODS STUDIO

## (GREGORY) VANCE GABBART / SE

### Education

Bachelor of Science: Architectural Engineering, University of Texas, Austin - 1974

### Licenses

Structural Engineer: NV, CA, OR & TX

Civil Engineer: CA & NV

### Affiliations

American Society of Civil Engineers (ASCE), Nevada Structural Engineers Association, American Concrete Institute (ACI), American Institute of Steel Construction (AISC).

### Overview

Vance is a founding member of GABBART AND WOODS STUDIO. His forty-plus years of experience include the structural design and project management of churches, schools, mid and low rise commercial office buildings, warehouse facilities, bridges, retail malls, seismic rehabilitation projects and private residences.

Vance's broad scope of expertise ranges from the seismic retrofitting of historical buildings, to innovation in ductile steel frames, to the design of highly efficient pre-stressed/post tensioned concrete structures.

Vance is well known as an engineering innovator and leader in the profession.
