PAUL WAITE / MS Eng / EI

Education

Bachelor of Science: Civil Engineering, University of Nevada, Reno – 2013

Masters of Science: Civil Engineering, University of Nevada, Reno – 2015

Affiliations

American Society of Civil Engineers (ASCE), American Institute of Steel Construction (AISC)

Overview

Paul has structural design experience in light-framed construction, heavy timber, structural steel, concrete and masonry. He has worked in the Truckee Meadows since 2014 on a wide variety of projects, from residential to industrial and commercial.

Some examples of projects Paul has worked on are:

- 4-Story Mixed-Use building with a post-tensioned concrete podium.
- 3-Story Apartment Large Scale Complexes.
- Commercial buildings in Tahoe and Reno.
- Heavy timber getaway lodge in high-snow country.
- Several new high-end residences in the Truckee Meadows.
- Executive Airport Hangars at the Truckee Airport.
- Commercial tenant improvements and residential remodels throughout the area.
